MEMORANDUM OF AGREEMENT

This **Memorandum of Agreement (MOA)** is made and entered into by and between **Juan Rafael C. Casano**, **Darius Duke L. Dela Rosa**, **John Christopher Marfil**, **John Mark D. Peñarubia**, and **Jerick Bryan B. Prejas** enrolled in **Bachelor of Science in Information Technology** at the Polytechnic University of the Philippines. The purpose of this agreement is to establish a formal partnership for the joint conduct of an undergraduate thesis project titled **"AI-BASED DIET AND NUTRITIONAL PLANNER WITH MEAL RECOMMENDATION AND NUTRITIONIST CONSULTATION"**, under the supervision of **Mr. Michael Anjelo O. Miguel, MIT**, The project serves as an academic requirement for completing their undergraduate degrees. It outlines each party's responsibilities and expectations to ensure the thesis's completion.

I. Purpose

This Memorandum of Agreement (MOA) is entered into by **Juan Rafael C. Casano**, **Darius Duke L. Dela Rosa**, **John Christopher Marfil**, **John Mark D. Peñarubia**, and **Jerick Bryan B. Prejas** for the joint conduct of an undergraduate thesis project titled **"AI-BASED DIET AND NUTRITIONAL PLANNER WITH MEAL RECOMMENDATION AND NUTRITIONIST CONSULTATION"** which serves as an academic requirement for their respective degree programs at the Polytechnic University of the Philippines.

II. Scope of the Agreement

This MOA defines the roles, responsibilities, and expectations for conducting, completing, and submitting the thesis project and adherence to academic and ethical standards.

III. Obligations of the Students

1. **Collaboration and Commitment**: All parties agree to work collaboratively, ensuring the timely progress and completion of the thesis project.
2. **Attendance and Participation**: All students commit to participating in all necessary research activities, consultations with the adviser, and formal thesis presentations.

IV. Roles and Responsibilities

1. **Literature Review**: Identifying and analyzing relevant academic sources.
2. **Data Collection**: Designing and conducting experiments, surveys, or fieldwork.
3. **Data Analysis**: Applying statistical or qualitative methods to interpret results.
4. **Drafting Sections of the Thesis**: Write specific chapters such as the introduction, methodology, results, discussion, and conclusion.
5. **Editing and Proofreading**: Review the document for coherence, grammar, and adherence to format guidelines.
6. **Managing References and Citations**: Ensuring proper citation and compiling a bibliography.

7. **Presentation Preparation**: Developing materials for oral presentations and defense.
8. **Project Management**: Coordinating tasks, tracking progress, and setting timelines.

Note: The specific allocation of these duties will be discussed and agreed upon by both students in collaboration with the thesis adviser. Any changes to this division of work must be mutually agreed upon and documented.

V. Compliance with University Rules

The students agree to abide by all relevant rules and regulations of the University, including:

1. Securing off-campus permits when conducting fieldwork or research outside the university premises.
2. Meeting all procedural deadlines stipulated by the **Bachelor of Science in Information Technology.**

VI. Compliance with External Regulations

1. **Biorisk and Biosafety**: If applicable, the students must complete a comprehensive risk and biosafety assessment before undertaking any laboratory work involving biological agents.
2. **Animal Permits:** For research involving animal subjects, the students must obtain all necessary permits in compliance with university policies and relevant national regulations.
3. **Permits for Vulnerable Subjects**: The students shall secure appropriate permits and follow established protocols when researching vulnerable populations, including children, the elderly, or individuals with disabilities.
4. **Indigenous Peoples**: Research involving Indigenous communities must be approved by the appropriate university committee, and the students must respect cultural sensitivities and obtain any necessary legal permissions.

VII. Role of the Adviser

The thesis adviser, **Mr. Michael Anjelo O. Miguel, MIT**, will:

1. Provide guidance and mentorship throughout the project.
2. Conduct regular consultations and feedback sessions.
3. Oversee compliance with academic and ethical standards.

VIII. Ethical Compliance

The students shall:

1. Conduct research ethically, adhering to the University's policies.
2. Obtain necessary ethical clearances before any data collection involving human or animal subjects.
3. Ensure data security and confidentiality throughout the research process.

IX. Intellectual Property Rights

1. All students will co-own the results and manuscript of the thesis project.

2. Any publication or presentation of the research requires mutual consent.
3. According to university policy, The University may use the thesis for academic purposes.

X. Dispute Resolution

1. Disagreements between the students will first be resolved through direct communication.
2. Unresolved issues will be escalated to the adviser for mediation.
3. The matter may be referred to the University if necessary for final resolution.

XI. Term and Termination

1. This MOA takes effect upon signing and remains valid until the thesis is completed and submitted or until the adviser and department approve a mutual agreement to terminate.
2. If a student withdraws from the partnership, alternative arrangements must be discussed with the adviser.

XII. Amendment

Any changes to this MOA must be documented in writing, signed by both parties and approved by the adviser.

XIII. Signatures

This MOA is binding upon the signatures of all students, witnessed by the adviser.
